Re: Supplemental Information

Dear Mr. Haymore

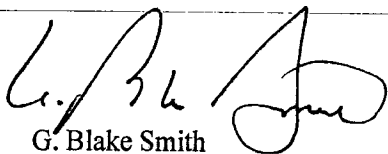

Thank you for accepting and reviewing our applications for Master Plan Amendment and Zone Change. We appreciate you taking the time to review these applications.

As per our follow up conversation regarding the applications, you mentioned that it may be helpful if the studies that have been conducted on the property were included with the applications. We are supplying 20 copies of each study that we had performed on the Cordevista property for those that will be reviewing our applications. We hope you find them helpful.

If you have any questions or concerns please feel free to contact me at anytime.

Sincerely,

---

G. Blake Smith  
Managing Partner
