

April 30, 2007

Dear Storey County Planning Commission,

As a tenant of the Tahoe Reno Industrial Park we have been made aware of the proposed Cordevista development located to the west of TRI in Storey County. We recognize the benefit of having a mixed use community located near TRI that will provide a broad spectrum of commercial and housing as well as other needs for those employed at TRI.

Having available housing is vital to the continued success of TRI. We express our concern that if adequate housing is not available for those employed at TRI, it will be detrimental to companies located within TRI. We believe that Cordevista will not only be a benefit to TRI but also to Storey County and the entire region.

We cordially request that our support of the Cordevista development be read into the public record at the next available meeting.

Sincerely,

Dan Burke
Pres./ CEO
