

Cordevista

A Master Planned Mixed Use Community

MEMO TO: Storey County Planning Commissioners
Dean Haymore, Storey County Planning Director
Pat Whitten, Storey County Manager

FROM : Blake Smith

DATE : May 3, 2007

RE : Lockwood area resident letters

Attached are letters of support for Cordevista. They were gathered in less than a day at the Lockwood Market this week. We are encouraged by the Lockwood residents' show of support. I respectfully request that these letters be read into the record.

Date: 5-3-07

To: Storey County Planning Commissioners:

I am a Lockwood area resident. I support the Cordevista group's request to rezone their property from special use industrial, heavy industrial, and forestry to residential useage for the following reasons:

- I am in favor of local schools to support our children so they do not need to be bused to Virginia City.
- I am in support of Cordevista's plan to help control flooding in Lockwood.
- I am in favor of the increased public service support (police, fire and emergency medical services) that a new residential development like Cordevista will bring to the Lockwood area.
- I believe that residential zoning is a better use of the property than special use industrial, which includes manufacturing and testing of explosives and other potential dangerous activities.
- I am in support of Cordevista's efforts to protect the site's petroglyphs and preserve wildlife habit

Other Comments:

Very important.

I respectfully request that this letter be read into the record at the May 3, 2007 Storey County Planning Commission meeting.

Name: Alana Ladd

Address: 331 Rue de La Jaune

Date: 5-3-07

To: Storey County Planning Commissioners:

I am a Lockwood area resident. I support the Cordevista group's request to rezone their property from special use industrial, heavy industrial, and forestry to residential useage for the following reasons:

Date: 5/2/07

To: Storey County Planning Commissioners:

I am a Lockwood area resident. I support the Cordevista group's request to rezone their property from special use industrial, heavy industrial, and forestry to residential useage for the following reasons:

- I am in favor of local schools to support our children so they do not need to be bused to Virginia City.
- I am in support of Cordevista's plan to help control flooding in Lockwood.
- I am in favor of the increased public service support (police, fire and emergency medical services) that a new residential development like Cordevista will bring to the Lockwood area.
- I believe that residential zoning is a better use of the property than special use industrial, which includes manufacturing and testing of explosives and other potential dangerous activities.
- I am in support of Cordevista's efforts to protect the site's petroglyphs and preserve wildlife habit

Other Comments:

I respectfully request that this letter be read into the record at the May 3, 2007 Storey County Planning Commission meeting.
